Algorithms Of Oppression How Search

Algorithms of Oppression. A revealing look at how negative biases against women of color are embedded in search engine results and algorithms.

Algorithms of Oppression

In Algorithms of Oppression, Safiya Umoja Noble challenges the idea that search engines like Google offer an equal playing field for all forms of ideas, identities, and activities. Data discrimination is a real social problem; Noble argues that the combination of private interests in promoting certain sites, along with the monopoly status of a relatively small number of Internet search engines, leads to a biased set of search algorithms that privilege whiteness and discriminate against ...
