LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

Boxi User Guide

You can search for a user by typing a username in the box marked 'Look for' and then click search or you can scroll through the 'available recipients' list to select the user that you want. Once you find the user that you want you need to click on the arrow to put that user into the 'selected recipients' box.
