BUILDING INFORMATION MODELING (BIM) GUIDELINES and ...

BIM Technical Standards. 3D imaging, also known as laser scan or point clouds, is the process of recording existing conditions into 3D point data. When creating new BIM data, how this data is divided and structured is important in ensuring project collaboration and in establishing the foundation for the building information life-cycle.

BIM Technical Standards | GSA

Building Information Modeling Standards (BIM) The intent of these BIM standards is to provide for the consistent development and management of Building Information Models on State building projects. These BIM standards apply to Designers and their Consultants, and/or to Contractors and their Subcontractors, selected by the State Procurement Agencies (SPA's) for projects designated to use BIM.
