Gizmo of the Week: Circulatory System | ExploreLearning News

Students can learn more about the heart in the Circulatory System Gizmo. They can observe the path of blood, view a microscopic blood sample, and measure how the concentrations of oxygen, carbon dioxide, sugar, and urea change as blood moves through organs. By comparing blood samples on either side of each organ, students can determine the roles that the lungs, kidneys, and intestines play in supplying vital substances and removing wastes.
