GSO 8-inch TRUE CASSEGRAIN. Dec 13 2019 02:43 PM by Larry Carlino GSO Cass can be regarded as somewhat of a specialist instrument. Its excellent overall optical quality, fine lunar and planetary performance, reasonable size and weight, and bargain price make it a fine choice where sterling deep-sky and rich-field capability are not a priority.

Starlight Xpress Lodestar X2 Autoguider. The Starlight Xpress Lodestar X2 Autoguider is a popular guide camera for deep-sky astrophotography. In fact, the original Lodestar was considered to be the best autoguider on the market for a long time.. The X2 version is the successor to the original Starlight Xpress Lodestar autoguider and uses a Sony ICX829 Exview sensor.

Using a Starlight Xpress Lodestar X2 Autoguider for ...

3. Aperture and Focal Length of a Guide Scope. Several factors and trade-offs make for a good guider camera, including: A sufficiently large aperture to detect faint guide stars in a nearly any field of view anywhere in the sky and to minimize autoguider exposure time, yet a small enough size and weight to prevent taxing the mount

Selecting a Guide Scope and Autoguiding Camera for ...

12/07/2020 · Forums Autoguider Well, the G3 cc camera has a telephone like cable that goes into the autoguider in the LX200GPS mount, and a USB that goes to the computer The LX200 mount has a different serial to USB converted cable that goes from the mount to the same computer, through a hub Guiding with PHD2 works so the hardware
