General Inpatient Guidelines

Medicare Benefit Policy Manual (CMS Pub. 100-02) Ch. 9 §40.1.5. General inpatient care (GIP) is available to all hospice beneficiaries who are in need of pain control or symptom management that cannot be provided in any other setting. Skilled nursing care may be needed by a patient whose home support has broken down if this breakdown makes it no longer feasible to furnish needed care in the home setting.

GENERAL INPATIENT CODING GUIDELINES. Use of Both Alphabetic Index and Tabular List. [eICD.com Note: the search feature in the both the online and stand-alone versions of the eICD obviate the need to examine the Alphabetic Index] Use both the Alphabetic Index and the Tabular List when locating and assigning a code. Reliance on only the Alphabetic Index or the Tabular List leads to errors in code assignments and less specificity in code selection.

General Inpatient Guidelines | idbooks.co

February 4, 2019 by Leslie Heagy, RN, COS-C. Last Updated on February 4, 2019. General Inpatient (GIP) Care is one of the four levels of care available to patients who elect the Medicare Hospice Benefit. GIP level of care is appropriate when the patient's medical condition warrants a short-term inpatient stay for pain control or acute or chronic symptom management that cannot feasibly be provided in other settings.
