### Having Faith Sandra Steingraber

As an ecologist, Sandra Steingraber spent her professional life observing how living things interact with their environments. Now, 38 and pregnant, she had become a habitat—for a population of one. Having Faith is Steingraber's exploration of the intimate ecology of motherhood. Using her scientist's eye to study the biological drama of new life being knit from the molecules of air, food, and water flowing into her body, she looks at the environmental hazards that now threaten pregnant and ...
