The ostrich is rarely met with, but is found as far north as the Jauf; it no doubt found its way into Arabia from Africa. A common bird is the kata or sand grouse. It is noted for going straight to its watering place. "Better guided than a kata" is a common proverb. Hawks and falcons are found, and falconry among the Arabs was a favorite sport.

Arab and Arab, whence Arabia. (2 Chronicles 9:14; Isaiah 21:13; Jeremiah 26:24; Ezekiel 27:21) (Arabia is a triangular peninsula, included between the Mediterranean and Red seas, the Indian Ocean and the Persian Gulf. Its extreme length, north and south, is about 1300 miles, and its greatest breadth 1500 miles. -Encyc. Brit.

Arabia Definition and Meaning - Bible Dictionary

That is, the basin to the north of Ghawar charged its reservoirs with more liquid hydrocarbons followed by gaseous hydrocarbons, making the north more gas-rich than the south. There is also a clear distinction between the quality of gas in the Khuff carbonate reservoir to that in the Unayzah and Jauf clastic reservoirs.

Paleozoic petroleum systems of Saudi Arabia: a basin ...

The latter are divided into two great stems, the south Arabian and indigenous branch descended from Kahtan, and the north Arabian or immigrant tribes descended from Ishmael, the son of Abraham. There is naturally a good deal of inconsistency in the various traditions of the origins of these tribes and their subsequent history.
