It's disappointing that there's no convenient menu that lets you just browse freebies. Instead, you have to search for your preferred genre, plus the word 'free' (free science fiction, or free history, for example). It works well enough once you know about it, but it's not immediately obvious.

Trucking Less Than Truckload Freight

Less than truckload (LTL) shipping allows multiple shippers to share space on the same truck. It is the more cost efficient option of the two, with multiple companies paying for their portion of trailer space. The less than truckload (LTL) shipping route is also ideal for businesses who have freight shipments less than 15,000 pounds.

Truckload vs. Less than Truckload Freight | Freightquote

Less-than-truckload shipping or less than load is the transportation of relatively small freight. The alternatives to LTL carriers are parcel carriers or full truckload carriers. Parcel carriers usually handle small packages and freight that can be broken down into units less than 150 pounds. Full truckload carriers move freight that is loaded into a semi-trailer. Semi-trailers are typically between 26 and 53 feet and require a substantial amount of freight to make such transportation economical
